PROFESSIONAL SUMMARY

Third-year Information Technology undergraduate with hands-on experience in web and mobile application development, software testing, API testing, and database management. Interested in Business Analysis, requirements gathering, system documentation, user story writing, process analysis, and software quality assurance. Skilled in understanding user needs, preparing documentation, testing application functionality, and working with development teams in Agile-based academic projects. Seeking an internship opportunity as a Business Analyst Intern or QA Engineer Intern to apply analytical thinking, communication, documentation, and problem-solving skills in real-world IT projects.

TECHNICAL SKILLS

- **Frontend:** React, JavaScript, HTML, CSS, Responsive UI
- **Backend & APIs:** Node.js, Express.js, Spring Boot, REST APIs,
- **Databases:** MongoDB, MySQL, Mongoose
- **Languages:** JavaScript, Java, Python, Kotlin, C, C++
- **Tools & Concepts:** Git, GitHub, Postman, VS Code, Android Studio, OOP, MVC, CRUD, Agile, Testing

EDUCATION

BSc (Hons) in Information Technology (Reading) - Sri Lanka Institute of Information Technology (SLIIT) | 2023 – Present

GCE Advanced Level Examination Passed – Nov 2023 | GCE Ordinary Level Examination Passed – Dec 2019

PROJECTS

Hospital Management System – MERN Stack (Group project)

- Developed a hospital management system using MongoDB, Express.js, React.js, and Node.js.
- Implemented role-based access control, appointment management, medical records, lab reports, and PDF reporting.
- Added features such as AI chatbot, BMI calculator, and lab report insights.
- **GitHub:** [GitHub - sanjuladilhara20020116/Hospital-Management-System](https://github.com/sanjuladilhara20020116/Hospital-Management-System) at dewduniMain · [GitHub](#)

Habit Flow Mobile Application – Kotlin | Individual Project

- Developed an Android self-care journal and habit tracking app using Kotlin, Java, XML, and Jetpack components.
- Implemented daily habit tracking, mood journal, hydration reminders, statistics dashboard, home-screen widget, and dark mode.
- Used Shared Preferences for local data storage and improved user experience with a simple, user-friendly interface.
- **GitHub:** <https://github.com/dewduni111/Habit-flow.git>

Smart Sport – Academic Management and Progress Tracking System | MERN Stack (Group project)

- Developed the lecturer academic management module using MongoDB, Express.js, React.js, and Node.js.
- Implemented module creation, lecture note uploading, viva scheduling, presentation scheduling, document download, and student marking features.
- Added schedule conflict detection to alert lecturers when viva and presentation sessions are booked at the same time.
- Calculated individual student marks and average marks for academic progress tracking.
- **GitHub:** <https://github.com/pasindu8/ITPM-Project/tree/dewduni-new>

ACADEMIC & PROJECT EXPERIENCE

- Built full-stack web and mobile applications using React, Node.js, MongoDB, Spring Boot, Kotlin, and REST APIs.
- Applied Agile practices, Git/GitHub version control, modular architecture, debugging, API integration, and testing across academic and personal projects.

EXTRA-CURRICULAR ACTIVITIES

- Member, Leo Club – Sri Lanka Institute of Information Technology
- Member, Art Circle – Sri Lanka Institute of Information Technology
- Member, School Cadet Team – Yasodara Devi Balika Vidyalaya, Gampaha
- Participated in cricket, netball, athletics, and dancing activities during school
